Subject: Re: XJ650RJ Speedo cable cross-match

I replaced ran into the same thing on my 82 Seca 650. We were going to order part #3R8-83550-01-00 and found it was discontinued.

The parts guy brought several cables out from the back room, and we found that part #5BN-83550-01-00 is virtually identical.

Kevin Hunter

The European one is 3R8-83550-00. Should work the same.
